景色になる家具

Furniture that becomes scenery

高さの異なる三つの座面を一つに構成した家具。それぞれ違う座り方が出来るだけでなく、サイドテーブルの役割も果たすなど、自由度の高いものにしている。家具そのものが簡易的な空間として成立し、心地よい景色となることを目指した。

A Space Composed for Relaxation

This piece of furniture is comprised of three seating surfaces of different heights. On top of allowing for different ways of sitting, it also serves as a side table, giving it a high degree of user freedom. This plain piece of furniture is intended to constitute a space in and of itself while also being pleasant to the eye.
